Warning: To Owners Of Projection Televisions

Still pictures or images may cause permanent picture-tube damage or mark the phosphor of the cathode ray tube. Avoid repeated or extended use of video games on large-screen projection televisions.

Epilepsy Warning

Please read before using this game or allowing your children to use it.

Some people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns in everyday life.

Such people may have a seizure while watching television images or playing certain video games. This may happen even if the person has no medical history of epilepsy or has never had any epileptic seizures.

If you or anyone in your family has ever had symptoms related to epilepsy (seizures or loss of consciousness) when exposed to flashing lights, consult your doctor prior to playing.

We advise that parents should monitor the use of video games by their children. If you or your child experience any of the following symptoms: dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, while playing a video game, discontinue use IMMEDIATELY and consult your doctor.

Precautions To Take During Use

- Do not stand too close to the screen. Sit a good distance away from the screen, as far away as the length of the cable allows.
- Preferably play the game on a small screen.
- Avoid playing if you are tired or have not had much sleep.
- Make sure that the room in which you are playing is well lit.
- Rest for at least 10 to 15 minutes per hour while playing a video game.

System Requirements

Please take time to ensure your system meets the Minimum Configuration, detailed below and on the packaging. **It is essential that your system meets these requirements in order for *Need for Speed™ Underground 2* to function properly.**

Checking my System Specification

The DirectX Diagnostic Tool can provide you with information about your system specification if you are unsure of your PC's current specifications.

- To run the DirectX Diagnostic Tool, click onto the **Start** button and select **Run**. In the Open box type DXDIAG. The DirectX Diagnostic Tool appears.
- Your system specification can be found in the System Information box and details about your video and sound card can be found under the Display and Sound tabs.
- You should compare this information with the information in the Minimum Configuration section, below. As a rule of thumb, a PC that meets the Minimum Configuration will run the game on the most basic graphics and sound options settings.

  Note: Unless you are an advanced user we do not recommend changing any of the options in the DirectX Diagnostic Tool.
- Do you need help on getting your game started? Jump to the *Clean Up Your System before Running the Game* section on p. 4!
- Having problems with your game crashing or locking up? Then consult the *Before Starting your Game* section on p. 6!

Minimum Configuration

- Microsoft Windows® 98/ME/2000/XP
- 933 MHz Intel Pentium III/AMD Athlon processor or 100% compatible
- 256 MB RAM
- 8x CD ROM/DVD drive
- 32 MB Direct3D video card with DirectX™ 9.0c compatible driver
- 2 Gigabytes free Hard Drive space
- DirectX™ 9.0c compatible sound card
- Keyboard, mouse, gamepad

Required for Online Games

- Broadband Internet connection.
- A valid account with an ISP (Internet Service Provider).
- 1 set of game discs per PC.

Clean Up Your System Before Running The Game

Before you install any software, it is **critical** that your hard drive be in optimum working order. We recommend that you get into the habit of performing regular "house keeping" on your PC. ScanDisk, Disk Defragmenter and Disk Cleanup are the tools that you need to use to keep everything running smoothly. Such good practice offers you the best chance of running today's games with minimum issues. As an added benefit, a clean system will operate more efficiently, and other software applications you use may run more quickly and stably.

- **ScanDisk (Win 98/ME)/Error-checking (Win 2000/XP)** detects and repairs disk errors and bad sectors on your hard disk drive/s (HDD/s).
- **Disk Defragmenter** ensures that the data on your HDD(s) is organised properly. This helps to prevent corrupt data and speeds up the accessing of this data by your Computer's Central Processing Unit (CPU).
- **Disk Cleanup** helps you to clear unnecessary files from your system. This frees up disk space and prevents conflicts that could stop the game from installing correctly.

Consult the Windows Help Guides for information on running the ScanDisk/Error-checking, Disk Defragmenter and Disk Cleanup tools.

Using Windows Help

1. Click onto the **Start** button and select **Help** (or **Help and Support** for Windows XP users) to bring up the Windows Help Guides.
2. Now, click the Search section and type in keywords such as "Scandisk" (Win 98/ME), "Error-Checking" (Win 2000/XP), "Defrag" and "Disk Cleanup" to find the guides that help you run these tools.

What Is DirectX™?

DirectX is part of Windows® 98, 2000, ME and XP. It allows Windows to access certain parts of your PC at high speed, to allow you to run today's games. As new technology is introduced, such as next generation 3D video cards and 3D soundcards, DirectX evolves to support these new technologies. *Need for Speed Underground 2* requires DirectX xx, which is included on the game disc for you to install if necessary.

In order to operate correctly, DirectX will need the latest software drivers for your video card and sound card. These drivers can usually be downloaded from your card manufacturer's website or obtained from the card manufacturer's Technical Support hotline. Using drivers that do not have DirectX xx support may result in display or audio problems in *Need for Speed Underground 2*.

To find out more about DirectX, visit the official DirectX website at:
http://www.microsoft.com/directx

How Do I Install DirectX 9.0c?

If you want to install DirectX **after** installing *Need for Speed Underground 2*, insert game disc 1 into your disc drive and click onto the Start button and select RUN. Type D:\DirectX\dxsetup.exe (or substitute the disc drive letter if it is other than D:\ Check in **My Computer**) and click OK.

Installing The Game

To install *Need for Speed Underground 2,* insert disc 1 into your disc drive and wait for the AutoRun menu to appear. Click INSTALL and then click NEXT; the serial number window appears. Type in the serial number found in the white box on the back of the *Need for Speed Underground 2* manual and follow the on-screen instructions to install the game.

- If the AutoRun menu does not automatically appear, double-click the **My Computer** icon on the Desktop, then double-click on the disc drive in which the game disc is inserted. Double-click on the 'setup.exe' file to install the game.

Uninstalling/Re-Installing The Game

If you are having problems or the game did not install correctly the first time, we recommend re-installing the game.

1. To uninstall the game, click onto the **Start** button select **Programs** (or **All Programs** for Windows XP users) and then choose the location where the game is listed. Click onto Uninstall to remove the game.
2. To reinstall the game after uninstalling it, follow the information in the *Installing the Game* section, above.

   Note: We strongly advise users against uninstalling this game manually, since certain files associated with the game may not be correctly deleted. It is normal for any files created by players such as save games, replays and other game-related files to be left on your hard drive in the game folder after the uninstall process. Should you not wish to keep these files after uninstalling the game, delete them as you would normally delete files from your PC.

Before Starting Your Game

In some cases, programs that are running on your system can monopolise resources that the game needs in order to run properly. Not all of these programs are immediately visible, and many activate automatically on start up. There are a number of programs known as "background tasks", that are always running on your system. In some cases, these *may* cause the game to crash or lockup.

As such, we recommend that you deactivate these "background tasks" prior to playing *Need for Speed Underground 2*.

> **Note:** While shutting down background tasks will optimise your system for running the game, their features will then be unavailable. Ensure that you re-enable background tasks after playing *Need for Speed Underground 2* by restarting your computer.

Anti-Virus/Crash Guard Programs

If your system is running Anti-Virus or Crash Guard programs, you are advised to close or disable them before running *Need for Speed Underground 2.* To do this, find the icon for the program on the Windows taskbar. **Right-click** the icon and select CLOSE, DISABLE, or the relevant option.

Closing General Background Tasks

Once Anti-Virus and Crash Guard programs have been disabled, you should end all unnecessary general background tasks as these can sometimes cause problems when installing or running PC games.

Windows 98/ME

1. Hold down the **CTRL** and **ALT** keys on your keyboard and press **DELETE** once. The CLOSE PROGRAM window appears with a list of all background tasks currently running on your system.
2. To end a background task, click on its name in the list, then click the **End Task** button.

   Note: It is important that you DO NOT CLOSE the background tasks named **Explorer** and **Systray** as these tasks are necessary for Windows to operate. All other background tasks may be closed.
3. The Close Program window closes and the task is ended. Repeat the above steps to close down any/all other background tasks.

Windows 2000/XP Professional

1. Hold down the **CTRL** and **ALT** keys on your keyboard and press **DELETE** once. The Windows Security window appears.
2. Click **Task Manager** to open the Windows Task Manager. To end a background task, click on its name in the list under the Applications tab, then click the **End Task** button.

   Note: Depending on your settings, when pressing **CTRL**, **ALT** and **DELETE** some Windows 2000/XP Professional users may bypass the Windows Security window and go straight to the Windows Task Manager.

Windows XP Home

1. Hold down the **CTRL** and **ALT** keys on your keyboard and press **DELETE** once. The Windows Task Manager window appears
2. To end a background task, click on its name in the list under the Applications tab, then click the **End Task** button.

   Note: Remember that the next time you restart your computer all of the background tasks that you ended reactivate automatically.

Starting The Game

- Insert disc 2 in your disc drive. The game will start automatically.

  Note: If the game does not automatically start when you insert the disc into your disc drive, go to **Start>Programs** (or **All Programs** for Windows XP users)**>EA GAMES>*Need For Speed Underground 2***. The introductory screens appear and the game begins.

Introduction

Welcome to Bayview, your destination in *Need For Speed Underground 2*. In Bayview, the Underground is thriving. With over 125 miles of open road to drive, feast on an almost limitless array of choices. Cruise the freeways for races, comb city streets for secret hotspots, or get modded with the latest gear at one of Bayview's numerous car shops. Customise your car with hundreds of accessories and aftermarket parts, including brand-new options like wheel spinners and audio upgrades. Once your ride is up to speed, take it to the streets in one of the all-new racing modes like Street X and Downhill Drift. Think you've got what it takes to make it in the Underground? Here's your chance to prove it.

Setting Up the Game

Get into the Underground.

Main Menu

CAREER Conquer Career mode and rule the underground (see p. 12).

QUICK RACE Jump right into a race (see p. 13).

ONLINE Race others online (see p. 13).

LAN Race others on a local area network (see p. 16).

CUSTOMIZE Mod your ride from bumper to headlights (see p. 10).

PROFILE MANAGER Save or load your game (see p. 16).

OPTIONS Adjust audio, video and gameplay options (see below).

Options

- To access the Options menu in the Main menu, click OPTIONS.
- To access the Options menu in-game, access the PAUSE MENU then select OPTIONS.

AUDIO Set in-game volume levels or select an audio mode.

DISPLAY Adjust display options.

GAMEPLAY Adjust the jump camera, rearview mirror, speedometer units, career difficulty level and map modes or toggle the autosave ON/OFF or PROMPT.

PLAYER Choose a transmission type, select stability control, change the default camera or toggle heads-up display content ON/OFF.

CONTROLS Change the game controls.

EA GAMES™ TRAX Adjust Music Playback options.

Playing the Game

Game Screen

Customise your Ride

Competing in the Underground requires an eye-catching combination of speed and beauty. Choose from hundreds of available performance parts and visual customisation modifications available in *Need For Speed Underground 2* to make your ride look good over and under the hood.

Select a Car

Your ride makes or breaks your reputation in the Underground. Looks are important, but no one pays attention to a car that's running dead last.

Make and Model

Browse the available cars but don't think of them as finished products. With a few wins under your belt you'll be customising these basic vehicles into exquisite street machines that car dealers can barely recognise.

> ***EA* Tip:** When picking a car check out the Acceleration, Top Speed and Handling ratings at the bottom of the screen. Performance modifications can improve these characteristics later, but you'll need to win some races with your stock vehicle in order to fund any serious work under the hood.

Customising

New cars are nice in the showroom, but there's plenty of room for improvement once they hit the streets. Make your car your own through a thorough customisation process. A vast array of modifications is available for your ride – if you've got the cash, that is.

- To begin customising your vehicle, click CUSTOMIZE in the Main menu.
- To switch cars, click the arrows.
- To toggle between stock cars and the cars you own, click the arrows on the filter bar at the top right of the screen.

Visual Star Rating

Your car can contribute to your visual star rating by looking smooth and upgrading your performance. As you modify your car, your star value increases. The star value contributes to your progression through the game by rewarding you with DVD/Magazine covers and money.

- The maximum number of stars you can earn is ten.

Visual Mods

Style is in the detail, so *Need for Speed Underground 2* leaves the details up to you. Choose from dozens of styles of hoods, rims, body kits, exhaust tips, spoilers, side mirrors and more. Transform your car's surfaces with pearlescent, gloss or metallic paint, vinyl graphics, positional decals, window tints and neon. There's also a car speciality shop that allows you to install hydraulics, add some scissor doors or wheel spinners and put in some trunk audio.

Vinyls

Vinyls are distinctive graphics that stick to your car's bodywork. They can be placed in up to four layers, allowing you to stack graphics for a collage effect. Each vinyl's colour can also be customised to further individualise your car's look.

- To stack vinyls, place the first vinyl on the bottom layer and then select a different layer for the next vinyl. The new vinyl is placed on top while leaving the first one undisturbed. You also have the ability to reorder the layers to get the perfect look.

Performance Mods

Let's face it, the automotive engineers who designed these cars never thought they could go this fast. Today's tuner culture hungers for speed, so they've enhanced every aspect of automotive performance with hundreds of aftermarket parts. *Need for Speed Underground 2* offers hundreds of modifications, from weight reduction to Nitrous Oxide, suspension kits to ECU fuel systems. Add all of this available power to your car and just keeping it under control could be a challenge.

Hydraulics

Hydraulic upgrades come in three levels:

- Level 1 allows you to raise and lower the front of your ride and is unlocked in Stage 1.
- Level 2 allows you to raise and lower your ride from side to side and is unlocked in Stage 2.
- Level 3 allows you to bounce the car and is unlocked in Stage 5.

If you have hydraulics installed on your car they are automatically enabled once you begin driving. Once you exceed 30 mph they are automatically disabled.

To pressurise:

- Hold **H** and use the steering/throttle controls to indicate the section of the car to use hydraulics.

To bounce:

- Hold **J** and use the steering/throttle controls to indicate the direction you want to bounce.

Game Modes

Take on the Underground in a variety of Quick Race mode races or Career modes.

Career Mode

Rise to the top of the Underground in Career mode.

- To start a game in Career mode, click CAREER in the Main menu then either create a new profile or load an existing profile.

Exploring

Want to make a name for yourself in the Underground? You're going to have to find it first. In Career mode, the city is yours to discover. Explore it by driving around to get a feel for the lay of the land. As you cruise you'll encounter rival racers who you can challenge to an Outrun race. Keep your eyes and ears open for hints pointing you to the areas where you can find the hottest races or the coolest upgrades.

> ***EA* Tip:** If you perform cool moves while you cruise, such as impressive slides, you earn points. These fill up your Race Breaker meter if you have Nitrous Oxide installed. Do something uncool like hit another driver and points are deducted from your Race Breaker meter.

Showcase Mode

As you win races and upgrade your car you receive messages telling you to proceed to locations where a photographer is waiting to take a picture of your souped-up ride. To set up the best shot you can, pop your hood, trunk or doors to show off the goods.

- To open or close the doors, press Arrow key ⇦/⇨.
- To open or close the hood, press Arrow key ⇧.
- To open or close the trunk, press Arrow key ⇩.

SMS

Messages from other SMS users offer you details on races, car shops, challengers and opportunities.

- When you see the SMS icon appear on-screen, press **TAB**. The game pauses and your messages appear.
- To return to the game, click BACK.

World Map

The world map offers a bird's-eye view of the entire city. Icons representing your car, opponents and the locations of potential races and shops also appear here.

- To access the world map, press **M**.
- To activate the GPS, click on the shop or event on the map legend or directly on the map itself.
- To return to the game, click BACK.

Quick Race Mode

Jump into the driver's seat and let the race begin.

To start a quick race:

1. Click QUICK RACE in the Main menu.
2. Choose between CIRCUIT, SPRINT, DRAG, DRIFT, STREET X, UNDERGROUND RACING LEAGUE or FREE RUN modes.
3. Select a location for your race.
4. Adjust race options.
5. Select a vehicle.
6. Choose a MANUAL or AUTOMATIC transmission. The race begins.

CIRCUIT	A traditional lap-style course. Finish first and leave your competitors driving in circles.
SPRINT	Find out how fast you can get from point A to point B.
DRAG	A pedal-mashing, speed-shifting race to the finish line.
DRIFT	Break loose into a stylish drift and rack up the points.
STREET X	Lap-based racing on tight and technical closed circuits. Fight for first place whatever the cost.
UNDERGROUND RACING LEAGUE	Lap-based racing on dedicated racetracks.
FREE RUN	No competition. No time limit. No rules. The open road beckons.

Online

Take the challenge online and race the best drivers the worldwide Underground has to offer.

Note: REGISTRATION REQUIRED TO ACCESS ONLINE FEATURES. TERMS & CONDITIONS AND FEATURE UPDATES ARE FOUND AT www.eagames.com

YOU MUST BE 13+ TO REGISTER ONLINE.

EA MAY RETIRE ONLINE FEATURES AFTER 30 DAYS NOTICE POSTED ON www.eagames.com.

To begin, select ONLINE from the Main menu.

EA Account Setup

Create a new account or use an existing one.

- To create a new EA account, click CREATE NEW EA ACCOUNT and follow the on-screen instructions.
- To use an existing account, click the default EA Account listed or select a different account by choosing USE EXISTING EA ACCOUNT.

  Note: A single player profile must be created in order to save your EA Account.

  Note: Your CD Key is linked to the first EA Account you log in with and is permanently attached to that account. Please do not lose your EA Account name or password.

Important Online Connectivity Information

If you are having trouble connecting to other players but can get into the game lobby, you are probably behind a firewall or router.

- To access configuration files through http, open TCP 80.
- To pass secure information to the *Need for Speed Underground 2* servers, open TCP 443.
- To use your buddy list, open TCP 13505.
- Open TCP 19700 – 21700 to play any 2005 Electronic Arts games. If you wish to open a small range in order to only enable *Need for Speed Underground 2* , open 20900 – 20999.

Online Menu

NEWS	Get the latest news on the *Need For Speed Underground 2* online community.
LOBBY	Join an existing race, create a new online race or set up a lobby filter.
SELECT CAR	Choose or customise your online vehicle of choice.
RANKING	View your personal stats, get the overall stats or find out who the monthly point leaders are.
OPTIONS	Adjust audio, video, gameplay, player, controller and online options.

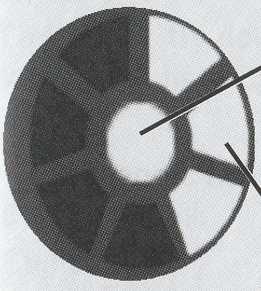
- To join an online game, select LOBBY in the Online menu. A list of games appears. Click the desired race. The game is loaded.
- To refresh the list of online games, click REFRESH.
- To filter the list of online games, click FILTER. You may filter by game mode, car performance, game type, race breaker and collision detection.

To create a new online game:

1. Select LOBBY in the Online menu.
2. Click CREATE NEW GAME.
3. Chose between a CIRCUIT, SPRINT, DRAG, DRIFT, STREET X, UNDERGROUND RACING LEAGUE or OUTRUN race.
4. Select the location of the race.
5. Adjust race mode options and click DONE to advance to the game lobby.

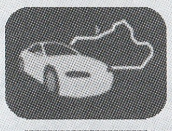
Player Status

A list of icons appears next to a player's name in each game room.

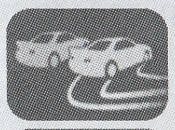


Awarded upon completion of Career mode.

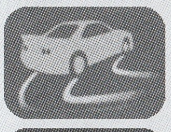
Awarded upon completion of each event (including non-mandatory events) in Career mode.



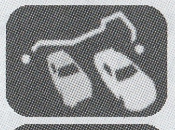
Achieving Elite Ranking in Circuit mode.



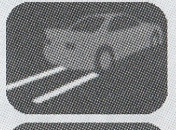
Achieving Elite Ranking in Street X mode.



Achieving Elite Ranking in Drift mode.



Achieving Elite Ranking in Sprint mode.



Achieving Elite Ranking in Drag mode.

Achieving Elite Ranking in the Underground Racing League.

EA Messenger

Find your friends online – or discover new ones.

- To open EA Messenger, click the EA Messenger Button.
- To toggle between friends lists, friends requests and blocked players, click the arrow buttons.
- Click on a player name in messenger to send them a message, a game invite or a friend request. You may also block players from the EA Messenger as well as offer feedback.

LAN

Race a friend over a LAN connection.

- To begin, select LAN from the Main menu. The LAN menu appears.
- To join a LAN game, click a game name from the LAN menu.
- To create a LAN game, click HOST LAN SERVER. Follow the on-screen steps. Your game is created and the Game Lobby appears.

Hints and Tips

To avoid poor performance during Internet play, ensure that you close any file sharing, streaming audio, or chat programs prior to entering gameplay. These applications can monopolise your connection's bandwidth, causing lag or other undesirable effects.

Need For Speed Underground 2 uses the following TCP and UDP port(s) for Internet play:

TCP **80**, **13505**, **20920-20929**, **20970-20979**

UDP **3658**, **3659**

Please consult your router or personal firewall documentation for information on how to allow game related traffic on these ports. If you are attempting to play on a corporate Internet connection, contact your network administrator.

Saving and Loading

To save a game:

1. Click PROFILE MANAGER in the Main menu.
2. Chose the profile to which you wish to save your game. Your game is saved.

To load a game in Career mode:

1. Click CAREER in the Main menu.
2. Select LOAD GAME.
3. Select a profile. Your game is loaded.

Problems With Your Software?

If you are having problems running your software, we want to help. There are essential methods you should carry out to ensure the latest games run on your computer. The methods listed below solve most of the problems when running the latest DirectX games.

Is Your Game Crashing Or Locking Up?

When running games that use the latest version of DirectX, you must ensure your computer is running the very latest driver for your video card. Installing the latest driver for your video card can help solve crashes and lock-ups in games.

First of all, try downloading the latest driver from the video card manufacturer's website. A list of popular video card manufacturers' websites is given below:

Asus:	**http://www.asus.com**
ATI:	**http://www.ati.com**
Creative Labs:	**http://www.europe.creative.com**
Guillemot:	**http://www.guillemot.com**
Hercules:	**http://www.hercules.com**

If there is no improvement, try downloading the latest driver provided by the video card **chipset** manufacturer. Your video card chipset is the video processing chip located on your video card, e.g. Radeon (ATI) and GeForce (nVidia) are video card chipsets. A list of popular video card chipset manufacturers is given below:

nVidia:	**http://www.nvidia.com**
ATI:	**http://www.ati.com**
Power VR:	**http://www.powervr.com**
Matrox:	**http://www.matrox.com**
S3:	**http://www.s3graphics.com**
Intel:	**http://www.intel.com**
SIS:	**http://www.sis.com**

Are You Experiencing Sound Problems?

If your are experiencing choppy or stuttering sound, or sound that cuts in and out try downloading and then installing the latest driver for your sound card. A list of popular sound card manufacturers is given below:

Creative Labs:	**http://www.europe.creative.com**
C-Media:	**http://www.cmedia.com.tw**
Diamond:	**http://www.diamondmm.com**
ESS:	**http://www.esstech.com**
Videologic	**http://www.videologic.com**

Notice

Electronic Arts reserves the right to make improvements to the product described in this manual at any time and without notice. This manual, and the software described in this manual, is under copyright. All rights are reserved. No part of this manual or the described software may be copied, reproduced, translated or reduced to any electronic medium or machine-readable form without the prior written consent of Electronic Arts Ltd, Customer Services, PO Box 181, Chertsey, KT16 0YL, England, United Kingdom. Electronic Arts makes no warranties, conditions or representations express or implied, with respect to this manual, its quality, merchantability or fitness for any particular purpose. This manual is provided "as is". Electronic Arts makes certain limited warranties with respect to the software and the media for the software. In no event shall Electronic Arts be liable for any special, indirect or consequential damages. These terms and conditions do not affect or prejudice the statutory rights of a purchaser in any case where a purchaser is a consumer acquiring goods otherwise than in the course of a business.

Warranty

Limited Warranty

Electronic Arts warrants to the original purchaser of this computer software product that the recording media on which the software programs are recorded will be free from defects in materials and workmanship for 12 months from the date of purchase. During such period defective media will be replaced if the original product is returned to Electronic Arts at the below address, together with a dated proof of purchase, a statement describing the defects, the faulty media and your return address. This warranty is in addition to, and does not affect your statutory rights in any way. This warranty does not apply to the software program themselves, which are provided "as is", nor does it apply to media which has been subject to misuse, damage or excessive wear.

Returns After Warranty

Electronic Arts will replace user-damaged media, current stocks allowing, if the original media is returned with a cheque or postal order for £7.50 per CD, payable to Electronic Arts Ltd. Please remember to include full details of the defect, your name, address and, where possible, a daytime telephone number where we can contact you.

Electronic Arts Customer Warranty, PO Box 181, Chertsey, KT16 0YL, United Kingdom.

Customer Support – Here to help you!

Electronic Help File

Your game includes an electronic help file to help solve any problems you might be having. The help file can be accessed from the Windows Start Bar in the same group as your game. Please check here first for common problems and solutions.

Ask Us

If you're still having trouble with your game, visit **www.electronicarts.co.uk** or **www.ie.ea.com** and click SUPPORT CENTRE. Once at the Support Centre, click GET HELP to view our knowledge base. The solutions you'll find here are the same as those used by our Customer Support staff, so you can be sure they're accurate and up-to-date. To ensure you find the answer to your question, choose the format, game type and title carefully. If you can't find an answer, click ASK EA to ask a Customer Support Technician who will answer you as soon as possible.

If you don't have Internet access, or would prefer to speak to a technician, telephone our Customer Support team (9am-9pm, Monday-Friday).

Please remember that due to the nature of most problems encountered when running PC games, it is far easier and generally far quicker to accurately diagnose the problem if you use our online Support Centre.

Telephone: **0870 2432435** Fax: **0870 2413231**

Note: These are UK National Call rate numbers charged at BT's standard national call rates for calls from a BT line in the UK. Consult your telephone service provider for further information. Calls from outside the UK will be charged at International rates.

Customer Support cannot provide game play hints or tips – if you're stuck, see the back of this manual for details of our official Hintline.

Keep up with the latest EA News!

If you want to keep up-to-date with all the news, reviews and gossip from Electronic Arts, why not register and get the official EA newsletter delivered to your inbox.

Mobile International Edition

Access the latest EA games on Vodafone live!

EA SPORTS™ FIFA Football 2005 Mobile International Edition moves the goalposts of football games on mobile with a new isometric viewpoint. This allows players to have a better perspective on the game, enabling the ability to pre-empt opponent's movements.
